## **The largest cleanup in history!**

The Ocean Cleanup is a non-profit organization that is developing technologies to rid the oceans of plastic. They collect plastic in rivers before it reaches the ocean, as well as cleaning up what is already in the ocean. In the past three years, they have removed 8,169 tons of trash from the world's waterways! Read more about this amazing project here: <https://theoceancleanup.com/>

## **Tell Us When You Go Green!**

Earth care matters! Record your sustainable choices and actions so we have an accurate record for our annual Earth Care Congregations application.
